

HS-S Laser Engraving Machine

With Rotary Attachment & Motorized Up & Down Table

Detailed Product Description

Model: HS-S9060/1280

Item Number:	HS-S9060/1280	Processing Area:	900x600mm/1200x800mm
Introduction	1. The up-down worktable design satisfies the customers' requirement for engraving large

	<p>materials.</p> <p>2. The design of motorized up and down table and rotary attachment is ideal for engraving cylinders, bottles and large materials.</p> <p>3. Hermetic exhausting system with an unfixed exhaust kit thoroughly resolves waste air exhaust problem from the laser process and fulfills the related process requirements.</p>
Optional attachments	Red dot pointer, auto-focus.
Technical index:	<p>Processing Area: 900x600mm/1200x800mm</p> <p>Ascending and descending distance: 200mm(for honeycomb table) / 300mm (for knife-strip table)</p> <p>Laser Power: 60/ 80W</p> <p>Max. Cutting speed: 36000mm/min</p> <p>Max. Engraving speed: 64000mm/min</p> <p>Electro motion ascending and descending weight: 20KGS</p> <p>Resolution Ratio: 0.0064mm</p> <p>Minimum shaping character: Chinese Character: 2x2mm, English Letter 1x1mm</p> <p>Location precision: <0.01/mm</p> <p>Controlling software: DSP control system.</p>

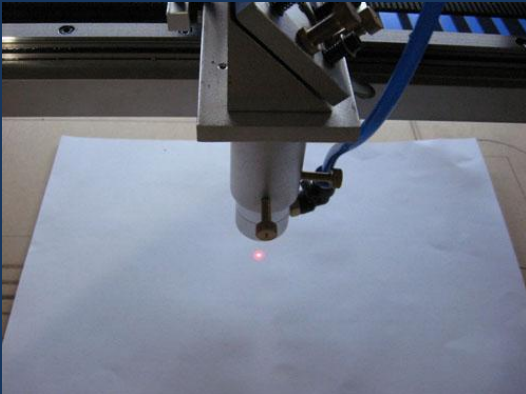

BEYOND LASER

CNC Cutting Technology S.A.

	<p>Compatible software: CorelDraw, AutoCAD, Photoshop</p> <p>Power supply: AC110 - 220±10%, 50-60Hz</p> <p>Gross Power: 1100W</p> <p>Graphic format supported: .BMP, .PLT, .AI, .DXF, .DST, .GIF and so on;</p>
<p>Applicable industries:</p>	<p>Cylinder engraving and non-metal material cutting for advertising, decorative, crafts, gifts, model industries etc.</p>
<p>Applicable materials</p>	<p>Acrylic, MDF, plywood, bamboo products, color plates, fabrics, paper, leather, shellfish, coconut shell, horn, resin, animal skin, ABS boards etc.</p>

Optional Attachments:

Red dot pointer:

Auto-focus:
